ONE BOXX - POWER, WATER, SEWER

The Camp Combo™ provides a complete utility package: power, water, sewer for up to 50 persons for large rig or small camp sites. The unit is mounted on a standard skidded building and is a FilterBoxx™ engineered product.

Additional Features include:

- Roll on/off skidded building: 10'7" W x 11'6"H x 54'6" L
- Weight: 60,000lbs
- Dual 105Kw or 125kw Generators
- 3,000 litre (800 gallon) diesel storage
- Engineered 50 Person automated ultra-filtration membrane bio-reactor (MBR) Wastewater Treatment System
- 17,000 liters (4500 gallons) automated fresh water supply with back-up fresh water distribution pump always on standby with low level shutdown
- Built in yard lights and 30' 1000W 360 degree multi directional light tower
- 24 vehicle plug-in board
- Above ground lift stations and hose
- Insulated generator room reduces noise
- Hatch panels for piping inlets and outlets
- Removable, insulated wall panels for easy equipment replacement
- Remote monitoring capability
- Storage room

Reduce your truck loads, move, set-up time and paperwork with ONE CALL!

Service Features

FilterBoxx is a design, engineering and build company specializing in packaged water treatment solutions for industrial clients for any size population. Remote and harsh climate environment applications are our specialty.

FilterBoxx Energy Services provides complete turnkey rental water and wastewater systems, including support equipment and services for 5 to 5,000 person camps and communities.

All equipment is set-up by trained Service Technicians. The set-up includes heat-traced, insulated hose (in winter), lift stations, safety cone pylons and professional tie-ins to your well site trailer.

The FilterBoxx environmental department will act on your behalf to facilitate permits to discharge in any jurisdictions.

TECHNICAL SUPPORT

Service Technicians are on-call 24 hours per day, 365 days per year and can provide fast, reliable and efficient tie-ins to your well site trailers

PERMITS

All wastewater systems have been approved in Alberta and British Columbia for discharge up to 25m³ per day. Our environmental department will facilitate the necessary permits with the ASRD and Provincial Health authorities where necessary in any jurisdiction required.

SERVICE LOCATIONS

Operations are headquartered in Spruce Grove and Grande Prairie, Alberta.

For more information on any of our products or services please visit us on the web at: www.filterboxx.com or call 1-877-868-4747

Wastewater Plant

Robust 50 person and automated MBR wastewater treatment plant

Worksite Convenience
